1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 3, 9 - 11, drawn to a method of manufacturing a matrix display panel and a matrix display panel itself, classified in class 438, subclass 151.

Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different invention I direct to a method of manufacturing matrix panel display and structure of itself, on the other hand, the second invention direct to the method of testing matrix display during the manufacturing.
3. A telephone call was made to Lisa A Bongiovi on 9/29/05 to request an oral election to the above restriction requirement, but did not result in an election being made.
